Actual settled engagement data, not projections. Premium ticket ceiling of **\$84** at Broadway Palm (Mar 2026, 4 shows, 86% capacity) — the pricing headroom is already proven.

Easy to produce.

A **six-piece touring company** and two grand pianos at center stage. 120 minutes with an intermission, adapting cleanly from **400 to 1,200+ seats**. A graphic stage plot, 18-channel input list and full technical rider ship with the offer, so your advance is a formality.

Easy to re-book.

Broadway Palm has brought it back **three times**, running 86–97% capacity. Bristol Riverside and Parx have each re-booked. It sells to **Boomers through Millennials** in the same room — which is why it fits a pops series, a subscription slot or a fundraiser equally well.
